EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard LaPeruta on 5/13/2004.

2. The application has been amended as follows:

Claims 2, 3, and 9 have been canceled.

Claims 1 and 7 have been amended as follows:

1. (Currently Amended) A method of manufacturing a luminescent screen for cathode-ray tubes having deposits of phosphor powder on an interior of a faceplate comprises:

applying a film formulation over said deposits to form a lacquer film, said film formulation [having at least one lacquer material and at least two non-aqueous solvents, one of said solvents being a non-solvent for at least one lacquer material] <u>comprising</u> polymethylmethacrylate (PMMA), methyl isobutyl ketone (MIBK), and linalyl acetate (LA);

applying a thin layer of aluminum on said film; and

exposing said screen to a sufficiently high temperature to volatilize any organic components.

7. (Currently Amended) A method of manufacturing a luminescent screen for cathode-ray tubes having fixed phosphor elements that comprises:

electrostatically spraying a film formulation on to said fixed phosphor elements resulting in a lacquer film, wherein said formulation [has at least one lacquer material and at least two non-aqueous solvents, one of said solvents being a non-solvent for at least one lacquer material] comprises polymethylmethacrylate (PMMA), methyl isobutyl ketone (MIBK), and linalyl acetate (LA);

applying a thin layer of aluminum on said film; and exposing said screen to a sufficiently high temperature to volatilize any organic components.

Application/Control Number: 10/027,889

Art Unit: 1762

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Cleveland whose telephone number is (571) 272-1418. The examiner can normally be reached on Tuesday-Friday and alternate Mon, 8-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive Beck can be reached on (571) 272-1415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
